My salary pretensions are from 2000 to 4000 € / month (net salary).

I am creative and sensitive, with imagination and originality reflected in all my projects. I possess strong visual skills to details, composition, light, color and form. I can carry out any project effectively. Conceptualization, content architecture, prototype, interaction design and visual design. Skills to design custom infographics and illustrations.

I'm interested in:

UX/UI design
designer

Brand identity – Packaging - Graphic

Remote working and remote work for collaborations
designer

Brand identity – Packaging - Graphic

Attractive artistic projects

Web designer - Website layout - Front end design

Service design - Infographics
